

Mada Dream

MADAGASCAR: Land of grace and emotions

Located in the heart of the Indian Ocean, Madagascar is a paradise on earth: its generous nature reveals lush vegetation that is home to exceptional biodiversity.

Its floor is not left out because it is full of precious and semi-precious stones that allow the creations and the most daring combinations.

It is in this dream setting that MADADREAM was born.

MADAGASCAR MAGIC FINGERS

Nature, generous in raw materials, has also endowed the Big Island with men and women, as skilled as they are creative. The diversity and complexity of its craftsmanship bear witness to this ancestral know-how.

MADAGASCAR: Land of passion and dream ...

MADADREAM is above all the fruit of our deep love for our beloved island: MADAGASCAR and its wealth.

MADADREAM is also the result of a desire to make a dream a reality: that of putting entrepreneurship at the service of creation.

Moreover, MADADREAM wishes to contribute, on our modest level, to the economic development of the Big Island and the development of our compatriots by providing a revenue-generating activity because MADADREAM values the taste of the effort.

Finally, MADADREAM is a challenge for the future: the upheavals that are constantly agitating the country, the many difficulties encountered by economic operators or the Cassandras who suggest you stand still and assemble the most fatal predictions, we want to oppose our hope in a better tomorrow thanks to the contributions of the private sector and to the creativity of the man, able to always reinvent himself.

Who are We?

MADADREAM is a Malagasy company specialized in the production of handicrafts and export products.

Concerning the artisanal articles, the quality of manufacture as well as the materials used make of them high-end products.

Our goals are to share about the craft industry and promote the «Vita Malagasy» (Made in Madagascar), while injecting meaning into our project by including a social and professional dimension.

Our favorite fiber is raffia. And our imagination is limitless when it comes to sublimate it. However, sisal, banana bark, vetiver, skin and zebu horn, coconut or wood also find their place in our collections.

The MADADREAM HANDCRAFT universe mixes tradition and modernity, classicism and exoticism.

MADADREAM adopts an urban style accompanied by a touch of poetry, playing with materials and colors, without ever losing sight of the functional aspect of the product. We are constantly seeking to renew ourselves in a spirit of sustainable development.
